## The Handcrafted Soap Project

Handmade soap is a fast-growing trend in the US. Indian artisans have practiced soap-making flawlessly for years, using local, all-natural ingredients. Thanks to our WorldCrafts partner, Village Artisans of India, this soap is available in the US at a remarkable price.

Village Artisans of India sponsors a handcrafted soap project among 15 Ansari craftspeople. Though most of these Muslim craftspeople have no more than a fourth-grade education, this project brings commerce, as well as health-care access, to their remote villages. It also brings the exploding herbal soap market to isolated Himalayan shepherds, who provide high-quality milk and clarified butter from local goats and buffaloes to create these unique handmade soaps.
